

The 19th IEEE/ACIS International Conference on Computer and Information Science brings together scientists, engineers, computer users, and students to exchange and share their experiences, new ideas, and research results about all aspects (theory, applications and tools) of computer and information science, and discuss the practical challenges encountered and the solutions adopted.

## CALL FOR PAPERS

ICIS 2020 Proceedings will be published by IEEE Conference Publishing Services and will be submitted to be indexed by SCI, EI, INSPEC, and DBLP. The conference will cover a broad set of research topics including, but not limited to, the following:

- AI, neural networks and genetic algorithms
- big data and analytics
- computer architecture and VLSI
- control systems, intelligent systems
- data mining, data warehousing and database
- image, acoustic, speech and signal processing
- intelligent agent technology, agent based systems
- internet technology and applications, e-commerce
- middleware architectures and techniques
- software architectures, design patterns, frameworks
- software metrics and project management
- software verification and testing
- testing, validation and verification of AI applications
- testing of large-scale distribute systems
- UML, OO modeling and simulation
- visual and multimedia computing
- Web engineering and applications and etc.

To see all of requirements, please visit the following link: <http://acisinternational.org/wp-content/uploads/2019/12/ICIS2020CFP-20190729.pdf>

## NOTICE OF SUBMISSION

- ① All papers should be submitted online for review to ICIS 2020.  
Please refer to <http://acisinternational.org/icis-submission-of-for-review/> for more information.
- ① Submission deadline: March 6th, 2020. Acceptance notification: March 21th, 2020.
