

The 23rd IEEE International Conference on Computational Science and Engineering (CSE 2020) will be held at December 29, 2020 ~ January 1, 2021, in Guangzhou, China. It is organized by Guangzhou University, and aims at bringing together researchers and practitioners in the world working on addressing these computing challenges on science and engineering, and providing a forum to present and discuss emerging ideas and trends in this highly challenging research field.

The safety and well-being of all conference participants is our priority. After evaluating the current COVID-19 situation, the decision has been made to postpone the IEEE CSE 2020 from November 10~13, 2020 and reschedule it for December 29, 2020 ~ January 1, 2021. Proceedings will not be cancelled, and publications will continue as planned.

### CALL FOR PAPERS

The conference is soliciting state-of-the-art research papers on, but not limited to, the following topics:

- Big data applications and analytics
- Intelligent and bio-inspired computing
- Computational social systems
- Scientific and engineering computing
- Cluster, grid, P2P and cloud computing
- Mobile computing and wireless communications
- Embedded and ubiquitous computing
- Security, privacy and trust
- Advanced networking and applications
- Service and internet computing
- Distributed and parallel computing
- Dependable, reliable and autonomic computing

To see all of sub topics, please visit the following link: <http://ieee-trustcom.org/CSE2020/CallforPapers.htm> .

### NOTICE OF SUBMISSION

- ① Submitted papers must not substantially overlap with papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings.
- ① All papers need to be submitted electronically through the conference website with PDF format. Please refer to <https://easychair.org/conferences/?conf=cse2020> for more information.
- ① Submission deadline: July 29th, 2020. Acceptance notification: September 29th, 2020.
