

2023 IEEE/ACIS the 23rd International Conference on Computer and Information Science

 Jiangnan University, Wuxi, China

 23rd~25th June, 2023

ICIS 2023 brings together scientists, engineers, computer users, and students to exchange and share their experiences, new ideas, and research results about all aspects (theory, applications and tools) of computer and information science, and discuss the practical challenges encountered and the solutions adopted.

The conference will cover a broad set of research topics including, but not limited to, the following:

COMMUNICATION SYSTEMS & NETWORKS

Computer architecture and VLSI
Mobile/wireless computing
Parallel and distributed computing & systems
Internet technology & applications
E-commerce
Internet of Things
Web engineering & applications

SOFTWARE ENGINEERING

Software architectures, design patterns, frameworks
Programming languages, compilers
Operating systems
UML, OO modeling & simulation
Software metrics & project management
Software specification techniques
Software verification and testing

NEURAL NETWORKS & GENETIC ALGORITHMS

Control systems, intelligent systems
Data mining, data warehousing & database
Knowledge discovery
Image processing & pattern recognition
Intelligent agent technology, agent based systems

APPLIED INFORMATICS

Visual and multimedia computing
High performance and small computing
Management information systems
Big data and analytics
Speech and signal processing

- Full paper submission deadline: 1st April, 2023
- ICIS 2023 proceedings will be published by IEEE Conference Publishing Services and will be submitted to be indexed by SCI, EI, INSPEC, and DBLP.
- All papers should be submitted online. For full information of ICIS 2023, please refer to official site: <https://acisinternational.org/conferences/icis-2023/>
